

FINHAM PARK
MULTI ACADEMY TRUST

9th October 2017

Dear Parent / Carer,

As I am sure you will already know, as part of our International School initiatives we have been fortunate in maintaining a link with another school in the city of Shanghai in China. The Wei Yu Experimental School is situated at the heart of central Shanghai in the Xuhui District – famed for its educational expertise and university.

This link has been developed with Finham Park School to allow students to develop their understanding of what it is to live in a world where globalisation ideology will be key to their own success and that of their country in the future. In addition to this we know that developing close links with a Chinese school allows our students to share curriculum projects in a diverse range of subject areas and communicate with their peers – ultimately in Mandarin Chinese! Our visit allows students to access and understand aspects of life in modern China that would not normally be accessible to tourists from the UK.

This programme links closely to Finham Park School's 'Confucius Classroom' status.

I have managed to secure permission to take a group of students from Finham Park to Shanghai during October 2018 (provisional dates are Saturday 13th October-Tuesday 23rd October 2018). During the visit we will work with Wei Yu Experimental School to deliver a joint project involving our students leading activities for their Chinese peers – culminating in a festival or exhibition of their work. The focus in 2018 will be the delivery of a Sports & Arts Festival. During the visit students will have opportunities to take part in a range of visits. Past destinations have included Yu Yuan Garden; The Shanghai World Financial Centre (world's tallest viewing platform at over 100 floors!); traditional market shopping; Jade Buddha Temple; People's Square; Shanghai Museum; Pearl TV Tower to name but a few!

Clearly this is an outstanding opportunity for your child to travel to China as part of Finham Park's fifth visit to our partner school.

To proceed with our plans, I will need an indication of interest. I am currently trying to secure additional sponsorship to support the trip. Clearly any funding we are able to raise before October 2018 will go toward the total cost of the trip and will reduce the cost for each individual student. Students will be selected according to their leadership potential and suitability to support project delivery.
